FOR IMMEDIATE RELEASE

Case Farms Hires Jason Arnold as Plant Manager

MORGANTON, N.C.— March 16, 2015 — Leading poultry producer, Case Farms welcomes Jason Arnold as the plant manager for the Morganton Processing Plant. In his role, Arnold oversees all production processes for all shifts in the Morganton Plant.

With experience at the plant management level for a number of other operations throughout the US, Arnold brings knowledge of efficient processes, money saving techniques and environmentally beneficial operations to Case Farms. Detail oriented and methodical in his approach to operations, Arnold is skilled in increasing yields, efficiencies and overall customer satisfaction through various initiatives.

“Jason’s approachable manner and likeable disposition drew us to him from the start,” says Hector Valez, Case Farms Morganton complex HR manager. “We feel confident that his experience and positive attitude will lead us to our organizational goals”.

With five years of industry experience preceding his employment at Case Farms, Arnold is a seasoned manager. He is certified in HACCP, Sustainability Management Systems, SQF2000, ISO 14001, AutoCad and is a Lean Manufacturing Specialist, He received his bachelor of science in Corporate Fitness from University of Central Missouri in 2007 and expects to complete his Master of Business Administration in Management and Leadership from Webster University this year.

About Case Farms, LLC:

Founded in 1986, Case Farms is a fully integrated poultry farming and processing group of dedicated individuals that work together to produce consistent, quality poultry products. Its driving purpose is to deliver superior products and service to every customer, every time. Case Farms processes 2.5 million birds per week, has over 3200 dedicated team members, and produces in excess of 800 million pounds of fresh, partially cooked and frozen-for-export poultry products per year. The company has operations or offices in Maryland, Ohio and North Carolina.
